

SUMMARY PROSPECTUS

AUGUST 1, 2018

Sit Minnesota Tax-Free Income Fund

TRADING SYMBOL: SMTFX

Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus and other information about the Fund online at www.sitfunds.com/open/documents.php. You can also get this information at no cost by calling 800-332-5580 or by sending an email request to info@sitinvest.com. If you purchase shares of the Fund through a broker-dealer or other financial intermediary, the prospectus will also be available from your financial intermediary. The Fund's prospectus and statement of additional information (SAI), both dated August 1, 2018, are incorporated by reference into this summary prospectus and may be obtained at no cost online at the website, phone number, or email address listed above.

INVESTMENT OBJECTIVE

The Fund seeks high current income that is exempt from federal regular income tax and Minnesota regular personal income tax consistent with preservation of capital.

FEES AND EXPENSES OF THE FUND

This table describes fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (<i>fees paid directly from your investment</i>)	None
Annual Fund Operating Expenses (<i>expenses that you pay each year as a percentage of the value of your investment</i>)	
Management Fees	0.80%
Acquired Fund Fees and Expenses ⁽¹⁾	0.02%
Total Annual Fund Operating Expenses	0.82%

⁽¹⁾ The total annual fund operating expenses do not correlate to the ratio of expenses to average net assets shown in the Fund's Financial Highlights, which does not include Acquired Fund Fees and Expenses

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. It assumes that you invest \$10,000 in the Fund for the time periods indicated, that your investment has a 5% return each year, that the Fund's operating expenses remain the same, and that you redeem all of your shares at the end of those periods. Although your actual costs and returns may be higher or lower, based on these assumptions your costs would be:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$84	\$263	\$457	\$1,017

PORTFOLIO TURNOVER

The Fund pays transactions costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 12.97% of the average value of the portfolio.

PRINCIPAL INVESTMENT STRATEGIES

The Fund seeks to achieve its objective by investing primarily in municipal securities that generate interest income that is exempt from regular federal income tax and Minnesota regular personal income tax. During normal market conditions, the Fund invests

100% (and, as a fundamental policy, no less than 80%) of its net assets in such tax-exempt municipal securities. The Fund may invest up to 20% of its assets in securities that generate interest income subject to both Minnesota and federal alternative minimum tax (“AMT”). Investors subject to AMT treat the Fund’s income subject to AMT as an item of tax preference in computing their alternative minimum taxable income.

The Fund substantially invests in municipal securities issued by the state of Minnesota and its political subdivisions. The Fund invests in both general obligation bonds, which are secured by the full faith, credit and taxation power of the issuing municipality, and in revenue bonds, which are backed by and payable only from the revenues derived from a specific facility or specific revenue source. The Fund generally invests a significant portion of its assets in obligations of municipal housing authorities, which include single family and multi-family mortgage revenue bonds, revenue bonds of health care-related facilities, and revenue bonds of educational institutions, which include higher education institutions, public, private and charter schools, and student loan-backed bonds.

The Fund primarily invests in securities rated investment-grade at the time of purchase or, if unrated, determined to be of comparable quality by the Fund’s investment adviser (the “Adviser”). Investment-grade securities are rated within the four highest grades by the major rating agencies. However, the Fund may invest up to 30% of its assets in municipal securities rated below investment-grade (commonly referred to as junk bonds) or determined to be of comparable quality by the Adviser, but the Fund may not invest in securities rated lower than B3 by Moody’s Investors Service, or B- by Standard and Poor’s or Fitch Ratings or, if unrated, determined by the Adviser to be of comparable quality. The Fund may invest in open-end investment companies (mutual funds) and closed-end investment companies which invest in the same types of securities in which the Fund may invest directly.

In selecting securities for the Fund, the Adviser seeks securities providing high current tax-exempt income. In making purchase and sales decisions for the Fund, the Adviser considers their economic outlook and interest rate forecast, as well as their evaluation of a security’s structure, credit quality, yield, maturity, and liquidity.

The Adviser attempts to maintain an average effective duration for the portfolio of approximately 3 to 8 years. Duration is a measure of total price sensitivity relative to changes in interest rates. Portfolios with longer durations are typically more sensitive to changes in interest rates. The Fund currently hedges the Fund’s duration by investing in interest rate futures and options, but not in excess of 5% of the Fund’s net assets.

The Fund’s dollar-weighted average maturity will, under normal market conditions, range between 10 and 20 years. However, since the Fund’s securities are subject to various types of call provisions which make their expected average lives shorter than their stated maturity dates, the Adviser believes that the Fund’s average effective duration is a more accurate measure of the Fund’s price sensitivity to changes in interest rates than the Fund’s dollar-weighted average maturity.

PRINCIPAL INVESTMENT RISKS

As with all mutual funds investing in bonds, the price and yield of the Fund may change daily due to interest rate changes and other factors. You could lose money by investing in the Fund.

The principal risks of investing in the Fund are as follows:

- > **Call Risk:** Many bonds may be redeemed (“called”) at the option of the issuer before their stated maturity date. In general, an issuer will call its bonds if they can be refinanced by issuing new bonds which bear a lower interest rate. The Fund may then be forced to invest the unanticipated proceeds at lower interest rates, resulting in a decline in the Fund’s income.
- > **Credit Risk:** The issuers or guarantors of securities owned by the Fund may default on the payment of principal or interest, or experience a decline in credit quality, causing the value of the Fund to decrease.
- > **Cybersecurity Risk:** Cybersecurity breaches may allow an unauthorized party to gain access to Fund assets, shareholder data, or proprietary information, or cause the Fund and/or its service providers to suffer data corruption or lose operational functionality.
- > **Derivatives Risk:** The Fund may incur losses from its investments in options, futures, and other derivative instruments. Investments in derivative instruments may result in losses exceeding the amounts invested. The Fund may use derivatives for hedging purposes. Compared to conventional securities, derivatives can be more sensitive to changes in interest rates or to sudden fluctuations in market prices and thus the Fund’s losses may be greater if it invests in derivatives than if it invests only in

conventional securities. Derivatives can be illiquid and difficult to value. A derivative transaction also involves the risk that a loss may be sustained as a result of the failure of the counterparty to the contract to make required payments.

- > High-Yield Risk The Fund may invest up to 30% of its assets in municipal securities rated below investment-grade, or if non-rated, determined to be of comparable quality by the Adviser. Debt securities rated below investment-grade are commonly known as junk bonds. Junk bonds are considered predominately speculative and involve greater risk of default or price changes due to changes in the issuer's creditworthiness.
- > Income Risk: The income you earn from the Fund may decline due to declining interest rates.
- > Interest Rate Risk: An increase in interest rates may lower the Fund's value and the overall return on your investment. The magnitude of this decrease is often greater for longer-term fixed income securities than shorter-term securities. The Fund's exposure to risks associated with rising interest rates may be increased due to the current period of rising interest rates from historically low levels in the U.S. and the effect of potential government monetary and fiscal policy initiatives and resulting market reaction to those initiatives.
- > Investment Company Risk: To the extent that the Fund invests in shares of another investment company, it will indirectly absorb its pro rata share of such investment company's operating expenses, including investment advisory and administrative fees, which will reduce the Fund's return on such investment relative to investment alternatives that do not include such expenses. In addition, the ability of the Fund to achieve its investment objective will partially depend upon the ability of the acquired fund to achieve its investment objective.
- > Liquidity Risk: The Fund may not be able to pay redemption proceeds within the time periods described in this Prospectus because of an inability to sell certain debt securities with more limited trading opportunities at a favorable price or time. The reduction in dealer market-making capacity and other recent events have caused the markets for some debt securities to experience increased price volatility and reduced liquidity. Consequently, the Fund may have to accept a lower price to sell a security, sell other securities to raise cash, or give up an investment opportunity, any of which could have a negative effect on the Fund's performance. Infrequent trading may also lead to greater price volatility.
- > Management Risk: A strategy used by the investment management team may not produce the intended results.
- > Market Risk: The market value of securities may fall or fail to rise. Market risk may affect a single issuer, sector of the economy, industry, or the market as a whole. The market value of securities may fluctuate, sometimes rapidly and unpredictably.
- > Minnesota State Specific Risk: The Fund substantially invests in municipal securities issued by the state of Minnesota and its political subdivisions. The State relies heavily on a progressive individual income tax and a retail sales tax for revenue, which results in a fiscal system that is sensitive to economic conditions. The State has had substantial budget deficits in prior bienniums, although currently the State has a surplus.
- > Nondiversification Risk: The Fund is nondiversified, as is typical of single-state funds. This means that the Fund may invest a larger portion of its assets in a limited number of issuers than a diversified fund. Because a relatively high percentage of the Fund's assets may be invested in the securities of a limited number of issuers, the Fund may be more susceptible to any single economic, political or regulatory occurrence than a diversified fund.
- > Political, Economic and Tax Risk: Because the Fund substantially invests in municipal securities issued by Minnesota and its political subdivisions, the Fund may be particularly affected by the political and economic conditions and developments in Minnesota. Since the Fund primarily invests in municipal securities, the value of the Fund may be more adversely affected than other funds by future changes in federal or state income tax laws.
- > Revenue Bond Risk: The revenue bonds in which the Fund invests may entail greater credit risk than the Fund's investments in general obligation bonds. In particular, weaknesses in federal housing subsidy programs and their administration may result in a decrease of subsidies available for the payment of principal and interest on certain multi-family housing authority bonds.
- > Sector Concentration Risk: Because the Fund may invest a significant portion of their assets in health care facility bonds, housing authority bonds, and education bonds, the Fund may be more affected by events influencing these sectors than a fund that is more diversified across numerous sectors.
- > Temporary Investment Risk: A Fund may hold cash and/or invest all or a portion of its assets in short-term obligations in response to adverse market, economic or other conditions when the investment management team believes that it is in the best interest of the Fund to pursue such a defensive strategy. A Fund may not achieve its investment objective when it holds cash or invests its assets in short-term obligations.

- > Valuation Risk: The Fund may hold securities for which prices from pricing services may be unavailable or are deemed unreliable, in which case the Fund's procedures for valuing investments provide that the Adviser shall use the fair value of such securities for valuing investments. There is a risk that the fair value determined by the Adviser or the price determined by the pricing service may be different than the actual sale prices of such securities.

HISTORICAL PERFORMANCE

The following tables provide information on the Fund's volatility and performance. The Fund's past performance before and after taxes is not necessarily an indication of how the Fund will perform in the future. The bar chart below is intended to provide you with an indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year.

The table below compares the Fund's performance over different time periods to that of the Fund's benchmark index, which is a broad measure of market performance. The table includes returns both before and after taxes. After-tax returns are calculated using historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

The performance information reflects Fund expenses, and assumes that all distributions have been reinvested. The benchmark is an unmanaged index, has no expenses, and it is not possible to invest directly in an index.

Annual Total Returns for calendar years ended December 31

The Fund's year-to-date return as of 6/30/18 (not annualized) was 0.41%.

Best Quarter: 8.51% (3Q09).

Worst Quarter: -7.75% (4Q08).

Average Annual Total Returns for periods ended December 31, 2017

Sit Minnesota Tax-Free Income Fund	1 Year	5 Years	10 Years
Return before taxes	5.83%	3.17%	4.54%
Return after taxes on distributions	5.83%	3.17%	4.54%
Return after taxes on distributions and sale of Fund shares	4.68%	3.21%	4.41%
Bloomberg Barclays 5-Year Municipal Bond Index (reflects no deduction for fees, expenses or taxes)	3.14%	1.83%	3.54%

INVESTMENT ADVISER AND PORTFOLIO MANAGERS

Sit Investment Associates, Inc. serves as the Fund's investment adviser. The Fund's investment decisions are made by a team of portfolio managers and analysts who are jointly responsible for the day-to-day management of the Fund.

The primary portfolio managers of the Fund are:

Michael C. Brilley, Senior Vice President, has served as Chief Fixed Income Officer of the Fund since 1988.

Paul J. Jungquist, Vice President – Investments, has served as Portfolio Manager of the Fund since 2000.

Todd S. Emerson, Research Analyst, has served as Research Analyst of the Fund since July 2018.

Kevin P. O'Brien, Research Analyst, has served as Research Analyst of the Fund since July 2018.

PURCHASE AND SALE OF FUND SHARES

The minimum initial investment for shares of the Fund is \$5,000. The minimum subsequent investment is \$100. The Fund's shares are redeemable. In general, you may buy or redeem shares of the Fund on any business day by mail (Sit Mutual Funds, P.O. Box 9763, Providence, RI 02940) or by phone (1-800-332-5580).

For additional information, please see "Buying and Selling Shares" in the Prospectus.

TAX INFORMATION

The Fund intends to meet certain federal tax requirements so that distributions of tax-exempt interest income may be treated as "exempt-interest dividends." These dividends generally are not included in gross income for federal income tax purposes. However, the Fund may invest up to 20% of its net assets in municipal securities subject to the federal alternative minimum tax. Any portion of exempt-interest dividends attributable to interest on these securities may increase some shareholders' federal alternative minimum tax. The Fund expects that its distributions will consist primarily of exempt-interest dividends.

Tax-exempt interest income is not included in net investment income for purposes of the federal net investment tax.

Distributions paid from any interest income that is not tax-exempt and from any short-term or long-term capital gains will be taxable whether you reinvest those distributions or receive them in cash. Distributions paid from a Fund's net long-term capital gains, if any, are taxable to you as long-term capital gains, regardless of how long you have held your shares.

The Fund intends to comply with certain state tax requirements so that dividends it pays that are attributable to interest on Minnesota municipal securities will be excluded from the Minnesota taxable net income of individuals, estates and trusts. To meet these requirements, at least 95% of the exempt-interest dividends paid by the Fund must be derived from interest income on Minnesota municipal securities. A portion of the Fund's dividends may be subject to the Minnesota alternative minimum tax. Exempt-interest dividends are not excluded from taxable income for purposes of the Minnesota franchise tax imposed on corporations and financial institutions.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank or financial adviser) the financial intermediary may impose account charges. The Fund and its related companies may also pay that intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary to recommend the Fund over another investment. Ask your intermediary or visit your intermediary's website for more information.
